# Real-Time Anti-Scalp Liquidity on MONAD

Logan Paul \$5.27M PSA  
10 Charizard Illustrator

# The Collectibles & Drops Explosion

Record-Breaking TCG Drops

Global Hype

Cultural Merch & Media Drops

Instant Sold-Out

# The Hidden Cost for Brands

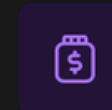

## Brand Damage

Frustrated real fans priced out and alienating core communities.

## Market Distortion

Artificially inflated demand metrics preventing accurate supply planning.

## Lost Revenue

Billions in secondary resale value uncaptured by creators and brands.

# Why Monad Execution?

## 1s Block Ticks

Smooth Dutch auction updates without gas spikes or RPC lag.

## Atomic Settlement

Instant profit calculation and royalty splitting in a single transaction.

## ReentrancyGuard & Pull-Payment

Immutable smart contract architecture safe against execution exploits.

# Market Size & Monad Benefits

\$15B+

High Frequency Trading

Global Resale Market Size (TCG, Concerts, Sneakers). Capturing 5% creates millions in permanent on-chain volume.

## Value Capture

Native liquidity pools generating recurring transaction.

## Web2 to Web3 Bridge

Onboarding thousands of real-world collectors on Monad.

# Fairdrop

« Let's be fair with fans, so everyone earns real money. »
